

2030 INNOVATIVE TEXTILE MATERIALS - STUDY -

In the framework of its opening, the CETI - European Center of Innovative Textiles - will present on Wednesday, October the 10th 2012, the results of the study 2030 INNOVATIVE TEXTILE MATERIALS.

From an unpublished study involving professionals of various sectors, how will we live, will we travel, will we get dressed, will we take care of ourselves in 2030 and what will the contribution of textiles be?

From dreams to reality, several scenarios can be established regarding the evolution of the world-wide market of the innovative textiles and perspectives for the European offer. Of course many challenges have to be faced : development of new fibers, recycling, mastery of the emerging technologies, ... revitalized by multi sector collaborations.

But while innovative textiles seem to invade all the sectors, can we talk about a sort of new industrial revolution?

2030 Prospective round table : what will be the reactions regarding the proposed scenarios and the challenges to be faced?

EADS ASTRUM - Brigitte DEFOORT : Materials and process Expert

PHELMA/IMEP - LAHC MINATEC - Laurent MONTES : MicroNanoTechnologies Project manager – Grenoble InP

SITBON ARCHITECTES - Emmanuel SITBON

CANADA (CCT GROUP) - Jacek MLYNAREK

IFM - Evelyne CHABALLIER : Director of the economical and prospective studies

T3Nel pour IFM - Christine BROWAEYS : Consultant engineer

Round table: Purpose of CETI?

High-level round table to discuss about the future of the textile in Europe, the research through the new CETI platform of innovation, the industrial renewal as part of the regional development...

PARIS - SACLAY - Pierre VELTZ - President

DICKSON CONSTANT - Eugène DELEPLANQUE - CEO

CETI - André BEIRNAERT - Founding President

NORTH CAROLINA RESEARCH CENTER - Benham POURDEYHIMI - General Director

THUASNE - Elisabeth DUCOTTET - President

Moderator : Pascal MORAND

To share and to exchange around textiles of the future see you on **Wednesday October 10th at 2:00pm at the CETI.**

Please book your spot on prospective2030@ceti.com
